V2 Text Tagger Controller

Annotate free text with ontology terms using dictionary based matching over labels, synonyms, and previous curations

- GET /api/v2/tag_text
- GET /api/v2/curation_sources
- POST /api/v2/tag_text

Individual Controller

NOTE: For IRI parameters, the value must be URL encoded. For example, the IRI http://purl.obolibrary.org/obo/IAO_0000124 should be encoded as http%3A%252F%2Fpurl.obolibrary.org%2Fobo%2FIAO_0000124.

- GET /api/individuals
- GET /api/individuals/{iri}
- GET /api/individuals/findByIdAndIsDefiningOntology
- GET /api/individuals/findByIdAndIsDefiningOntology/{iri}

V2 Stats Controller

This endpoint provides statistics about the current state of the ontology index. It includes the number of ontologies, classes, individuals and properties indexed, and the last time the index was modified.
